About Me

Who am i?

Hai! I'm Dina Nurlita

I'm a student majoring in diploma of Telecommunications Technology at Telkom University. This is the first website version of my curriculum vitae that I have. I made this because I had to do a programming course assignment. Honestly I'm still trying to improve my curriculum vitae but if you guys want to know about me this is the right place. Enjoy your surfing.

Let's see my hobby

Hobby

Badminton

It feels like when we play badminton we can control our balance and for me playing badminton can also channel my anger.

Cycling

Honestly I prefer cycling to running because cycling makes me feel free and makes my day.

Reading novels

I usually read novels before going to bed and my favorite genre of novels are all stories with happy

Editting

Cycling

Honestly I prefer cycling to running because cycling makes me feel free and makes my day.

Reading novels

I usually read novels before going to bed and my favorite genre of novels are all stories with happy endings except horror.

Editting

I love editing photos to upload on instagram and editing videos for tiktok and I feel editing is a basic skill that everyone should have.

Watching Movies

After having a busy day, I usually fill my free time by watching movies.

Travelling

Go as far as you can, enjoy your youth and find the experiences you can't forget until you get older.

Let's see my interests

Interests

Programming
Envato Customer

I was interested in learning programming when I started studying programming courses in this diploma majoring in telecommunications technology.

Web Design
Entrepreneur

I am interested in learning web design because I have a plan to have a company that later the company will have a very good website.

More About Me

I am a person who gets bored easily so now I want to take part in various activities to practice my soft skills and hard skills and of course, increase my experience.

I am very happy to be friends with anyone but in terms of the trust, it is difficult for me to easily trust other people, especially if we just know each other.

For Indonesian UMKM

Through this website, I have a goal to advance Indonesian UMKM, but my limitations in programming languages so maybe it can be continued by the next developer.
